

KC-65721

60 tonnes truck crane "Galichanin" on VOLVO FM400 and MZKT-700600

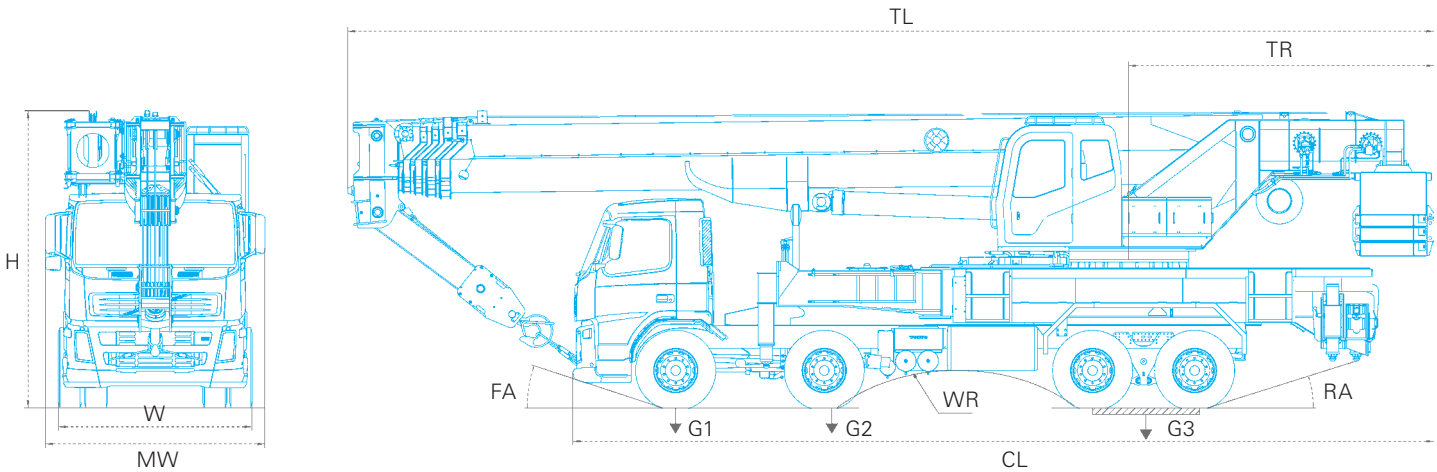

CRANE MODEL KC-65721 is the first 60 tonnes lifting capacity crane in production line of Galich Autocrane Plant. As all products, that are bearing name "Galichanin" this model is made for customers who already have 50 tonnes cranes in their vehicle park. Big outrigger area 7,4x7,2m allow to work in 360° working zone

NOT ONLY AMONG Russian producers this model may be competitive, great lifting characteristics and quality of the crane not yielding in comparison with foreign crane models

KC-65721

MODEL	KC-65721	KC-65721-2
Total Length (TL), mm	14580	14580
Chassis Length (CL), mm	11556	10880
Turn radius (TR), mm	4095	4085
Height (H), mm	3986	3990
Width (W), mm	2598	2550
Max Width (MW), mm	2942	2850
Front angle (FA)	18°	22°
Rear angle (RA)	17°	16°
Front axle weight (G1), t	9	9,5
Second axle weight (G2), t	9	9,5
Rear double axle weight (G3), t	26,2	25,5
Wheel Radius (WR), mm	2080	3237

KC-65721 CRANE LINE MOUNTED ON VOLVO FM400 | MZKT-700600

LIFTING CHART OF KC-65721 PRODUCT LINE

Lifting capacity.....50 t
Lifting moment.....160 t/m
Boom length.....11,7–42,0 m
Working radius.....3,2–32,0 m
Jib length.....9; 15,0 m

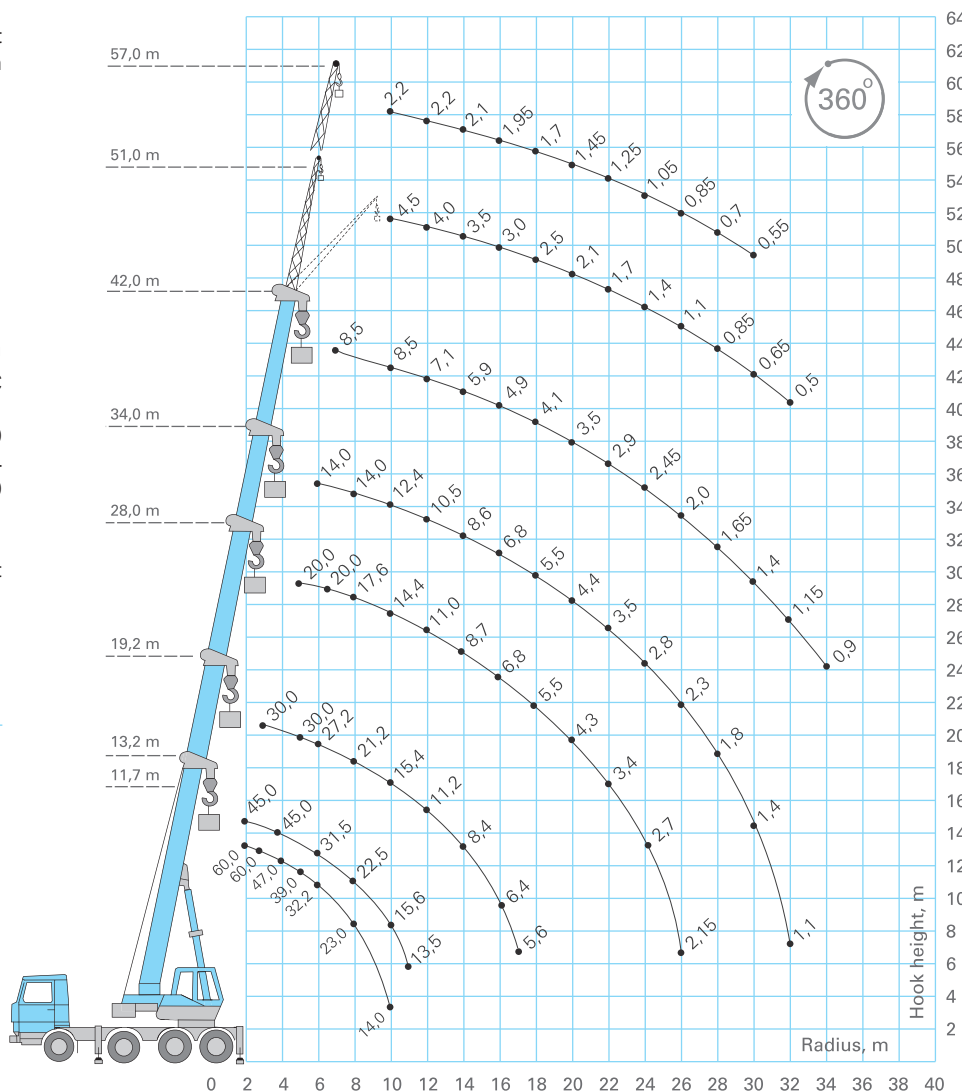

Max hook height:*

- with 42 m main boom.....43,2 m
- with 42 m main boom & 9 m jib.....52,5 m
- with 42 m main boom & 15.1 m jib.....58,2 m

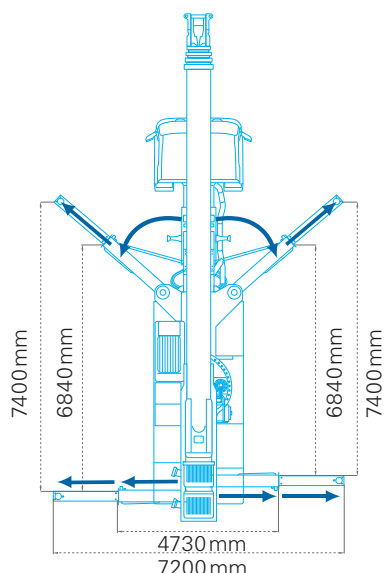

Lifting and lowering speed.....3,2–36,8 m/min
Slewing speed.....1,7 min⁻¹
Explotation temperature.....from –40 to +40 °C

Chassis.....VOLVO FM400 | MZKT-700600
Wheel formula.....8x4
Engine.....D13A400 | YAMZ-7551.10
Transportation speed.....40 km/h
Weight of crane in transport position.....44,18 | 44,5 t

* Additional 5 tonnes counterweight is available for customers
Additional winch can be bought from the seller
Additionally jib can be mounted to crane by your reply
