Articulating Crane

► 40/275 Articulating Crane

Let IMT® do the heavy lifting for you. Offering an exceptional lift-to-weight ratio, our 40/275 articulating cranes have a max lifting capacity of 19,025 lb (8630 kg) and maximum horizontal boom reach of nearly 70 ft (21.3 m). These cranes provide the power, durability, and versatility you need to complete a wide variety of projects in even the most challenging job sites. Plus, performance-driven features like radio remote control help make your operation more efficient.

* Crane rating (ft-lb) is the rated load (lb) multiplied by the respective distance (ft) from centerline of rotation with all extensions retracted and the inner and outer booms in a horizontal position, per ANSI B30.22. ** Crane weight is for standard crane with tank & 8-bolt long mounting kit. Does not include stabilizers, tank or oil.

Standard Features

- Radio remote control
- Double link arm system
- Application-specific product offering
- Superior lift-to-weight ratio
- Long-reach capabilities
- Hexagonal booms for superior reach and maximum control
- Internal hose routing
- 15° overbending on outer boom

Options

- Various stabilizer configurations
- Boom mounted winch
- Floodlight on outer boom
- Boom tip functions for hydraulic attachments
- Oil cooler

Specifications

Stabilizer Pad Diameter	8" (20.3 cm)
Crane Storage Height	7' 10" (2.4 m)
Mounting Space***	3' 9" (1.2 m)
Rotational Torque	29,500 ft-lb (4.1 tm)
Rotation	Infinite
Optimum Pump Performance	21.1 gpm (80 L/min)
System Pressure	5295 psi (365 bar)
Oil Reservoir Capacity	66 gal (250 L)
Stabilizer Extension Span	
Minimum (2 beams - 64" [162.6 cm] long)	18' 3" (5.6 m)
Maximum (2 beams - 108" [274.3 cm] long)	25' 6" (7.8 m)
Stabilizer Weights	
Stabilizer Beam 64" (162.6 cm)	375 lb (170 kg)
Stabilizer Beam 81" (205.8 cm)	585 lb (265 kg)
Stabilizer Beam 108" (274.3 cm)	640 lb (290 kg)
Stabilizer Cylinder, 1x swing-up	145 lb (65 kg)
Stabilizer Cylinder, 1x hydraulic swing-up	160 lb (72 kg)

*** Maximum swing clearance radius required is 29" (73.7 cm) at 8' 6" (2.6 m) from top of chassis frame

Minimum Chassis Specifications

Front Axle Rating (GAWR)	16,000 lb (7260 kg)
Rear Axle Rating (GAWR)	40,000 lb (18,145 kg)
Resistance to Bending Moment Minimum	4,125,000 in-lb (475,250 kg-m)

Hexagonal Boom Design

A wide hexagonal profile with large bearing surfaces ensures greater strength and stability for horizontal and vertical spans — even when working in extreme positions with long reaches. Plus, it's protected by powdercoat paint that never fades, flakes, or corrodes.

Internal Hose Routing

Fed internally through protective nylon drag chains or roller guides, all hoses are equipped with sturdy, high-pressure swivel couplings to prevent them from twisting.

Overbending

Overbending between the main boom and jib provides greater flexibility when working under power wires and more potential for high lifting in narrow passages. It also lowers the total height when the loader is stowed over the truck body.

Stow Bracket Innovation

The stow bracket is designed to secure the boom for transport position but not allow for bracket damage. Unlike systems with rigid fixed brackets, the "J" hook will pivot if an incorrect movement is attempted.

Power Source

- Standard integral-mounted piston hydraulic pump and PTO application

Cylinder Holding Valves

- Integral-mounted counterbalance valves or load-holding check valves
- Prevention of sudden cylinder collapse in case of hose failure

Rotation System

- 360 degree continuous rotation through planetary gear box
- 29,500 ft-lb (4.1 tm) rotational high-torque hydraulic motor
- Hydraulic brake included

Hydraulic System

- Open-centered system — closed optional
- Regeneration system on extension cylinder to ensure quick deployment
- Hydraulic oil reservoir, air breather, replaceable return-line filter, and control valve with levers

Overload System

- Load-limiting capability for boom functions
- Rated capacity limitation (RCL) 5300 blocks load-increasing functions when full capacity is attained

Nothing Says Commitment Like The Diamond.™

IMT has been meeting the needs of our customers for over 50 years and none of it would have been possible without a distributor network that's second to none. IMT distributors offer fast, knowledgeable service and the ability to help customers find the right product for every application. When you're looking for reliable equipment and dependable service, remember IMT.
