

## LIFTWERX GenHook

### Criteria

#### Value or Description

##### Turbine Platforms

Turbines in the 1.5MW to 8MW range, onshore or offshore

##### Types of Major Component Exchanges

Gearbox, generator, blade, transformer, blade bearing

##### Other O&M Applications

Up-tower gearbox repairs for turbines in the 4MW to 8MW range.

##### Maximum Lifting Capacity (Safe Working Load)

27 tonnes

##### Load-Moment Capacity

100 t-m

##### In-Service Maximum Wind Speed

12 m/s

##### Maximum Gust Wind

18 m/s

##### Maximum Reach

7 metres

##### Operating Temperature

-25C to +45C  
Maximum Hook Height  
140 metres  
Hoist Speed  
5 metres / minute  
Power Supply  
Turbine backfeed circuits
