

MATERIAL HOIST

S-1000

S-1000
CE

Since 1980 OGEI has been supplying construction, mining and Oil&Gas industries all over the world with economical, user-friendly and trouble free elevation solutions.

The S-1000 is designed for heavy duty operation and all mechanical and electrical components are thoroughly tested to conform to harsh operation conditions and all applicable safety standards.

The S-1000 is the most cost effective solution for a safe and efficient material distribution in vertical construction.
