POWER IS IN YOUR HANDS

HIGH VERSATILITY

- 40 USt lifting capacity
- 99 ft max boom length with proportional extension mode
- 108 ft max tip height main boom
- Additional lattice jib of 26 ft
- 135 ft max tip height with jib

FULL CONTROL. New TEOS Operating System

- 10" full-color touch screen display with intuitive interface
- Ergonomic electro-proportional joysticks with adjustable responsiveness to operator preferences

TOP CLASS EQUIPMENT

- T-Link Telematics included
- 3 working area LED lights outside the cab included

GREAT COMFORT, EXCELLENT VISIBILITY

- Extra wide and tiltable cabin with large glass surface. No blind spots.
- Integrated heating and air conditioning system

EASY TO HANDLE

- Easy to transport and maneuver
- Only 8.3 ft width
- Four steering modes
- Automatic / manual shift modes

WIDE RANGE OF OPTIONS

- Additional lattice jib of 26 ft and single sheave
- Auxiliary winch
- Up to 4 cameras for enhanced visibility, integrated on main display
- Radio remote control

THE STRONGEST STRUCTURE DESIGNED FOR HEAVY LIFTS

The strongest crane structure

Full crane structural and component FEM* analyses have been developed to deliver the best structural design, capable of delivering reliable performance, even in the most demanding applications.

*FEM: Finite Element Method

Hydraulic boom

The 4-sections hydraulic boom features one cylinder with double extension. The boom extension occurs in proportional mode between the sections.

Proportional boom extension

4 steering modes

For superior maneuverability around the jobsite, the crane offers 4 different steering modes.

2 wheel-front

2 wheel-rear

4 wheel-coordinated

4 wheel-crab

HIGH POWER, LOW FUEL CONSUMPTION WITH IMPROVED ENGINE DESIGN

Cummins QSB4.5 Tier 4 Final/Stage V engine

The Cummins QSB4.5 Tier 4 Final/Stage V 4-cylinder engine delivers high-performance speed and hoisting capabilities. Alternative: Cummins QSB4.5 Tier IIIA/Stage V 4-cylinder engine.
Two shift modes available: automatic or manual.
Permanent 4 wheel drive.

EcoMode: reduce fuel consumption

EcoMode employs automatic engine throttle to optimize power during crane operation and stand-by to lower fuel consumption.

OPTIONAL 26 FT JIB

The TRT 40US features an optional 26 ft lattice jib, stowed on the crane's side and easily attached to the main boom.

T-LINK TELEMATICS PLATFORM

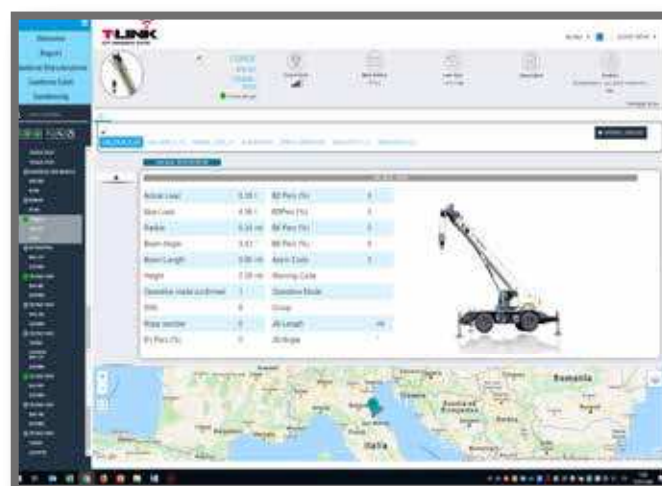

The T-Link Telematics Platform, included on base unit, allows remote access of crane fleet operating data anytime, anywhere via the internet from your computer, smartphone or tablet.

► **Cost savings and increased of productivity**
Thanks to T-Link, cost savings and increased productivity can be achieved in all applications.

► **Better management of maintenance and technical assistance**
Remote monitoring delivers critical vehicle operating data and statistics. Routine maintenance can be scheduled more efficiently and unexpected issues are quickly addressed.

► **Fleet control**
Using the *Geofence* function, each crane's position is monitored, and the owner is notified in the event the crane leaves its set boundary.

► **Improved machine management, statistics and real-time data**
A wide range of *real-time operating data* and *fault-codes* are reported to assess fleet performance.
The machine's *Data logger* section collects detailed machine information, such as working hours, load lifting statistics, alarm history, etc.

TEOS NEW TEOS OPERATING SYSTEM

The new **Terex Operating System TEOS** offers improved information flow and accessibility to increase operating efficiency.

► **10" full-color touch screen display**

The new user interface with wide 10" full-color touch screen display features self-explanatory and intuitive icons.

► **Intuitive navigation**

Based on extensive customer feedback, information access is quick and easy. The primary and most frequently used functions are immediately accessible, and intuitive controls ensure a short learning curve for new crane operators.

► **Diagnostics**

Error messages and warnings are within easy view for enhanced safety. A dedicated menu for diagnostics gives immediate feedback on crane, main component and sensor operating status.

► **Options included**

Optional cameras are incorporated in the main display: the operator has full control of the crane from all points of view via a single display. Status of the radio remote control and T-Link platform options can also be seen on the main display.

Customizable electro-proportional joysticks

As desired, the operator can customize the buttons and fine-tune the responsiveness of all crane movements – smoother or prompt reaction – to meet personal preferences.

Multiple personal configurations can be saved.

KEY APPLICATIONS

The versatility of our rough terrain cranes allow us to cater for a number of applications, including:

SHIPYARDS

CONSTRUCTION

SHIPPING
& LOGISTICS

MILITARY

OIL & GAS

POWER
PLANTS

MOBILE
EQUIPMENT
COMMISSIONING

MATERIAL
HANDLING

MAINTENANCE
WORKS

ROADS & RAILWAYS
CONSTRUCTION

GENERAL
LIFTING
APPLICATIONS

MINING

WHY SHOULD YOU CHOOSE A TEREX RT?

- ▶ To work on undeveloped sites or with unpaved roads
- ▶ To work inside buildings or within limited spaces
- ▶ In need of a crane on site for more than a week
- ▶ Combination of pick and carry ability and high lifting performance on outriggers
- ▶ For new to experienced operators
- ▶ Multiple lifting requirements

TEREX ROUGH TERRAIN CRANES AT A GLANCE

1. No matter the ground type or condition, Terex RT are highly efficient; a real ALL Terrain crane
2. A versatile machine for indoor use thanks to its compact dimensions and zoning system
3. Jib availability to reach the more demanding spots on top of the buildings
4. No matter how crowded and narrow the lift area, you can always find the right safe spot
5. Pick and carry capability enables you to lift and carefully place loads at a distance
6. High lift capacity and compact crane dimensions, the perfect compromise
7. Single cabin design with an easy-to-use, intuitive control system
8. Increases the value of your investment over time
9. Terex T-Link telematics platform gives you the freedom to be in control of your fleet data anytime, anywhere
10. Remote control available to perform lifts
