

VST-52-MHI

Payload: Approximately 3,840 lbs

Working Height: 56 ft 6 in (17.2 m)

Horizontal Reach: 30 ft 4 in (9.3 m)

Maximum Platform Capacity: 600 lbs (272 kg)
(varies with installation and jib/winch)

Maximum Jib Capacity: 1,000 lbs (454 kg)

LIGHTEST
IN ITS CLASS

MOUNTS
ON NON-CDL
CHASSIS

- BEST IN CLASS PAYLOAD due to smarter, lightweight design
- Unprecedented lineman protection at the platform with TruGuard® safety system
- Electroguard® system allows complete dielectric isolation, even when fully retracted
- 1,000 lbs maximum jib capacity, with several platform & jib and winch packages available
- Full-pressure hydraulic upper controls - for greater responsiveness and control
- Ease of Maintenance: Non-lube bearings, open center hydraulic system, infinitely adjustable boom slide pads, torque seal markings on all critical fasteners
